M Bar C Construction
is your solution for
everything under
the sun.

Who we are.

M Bar C Renewables Division specializes in the design and installation of commercial solar carports, rooftop systems, ground-mounts, and advanced energy storage solutions.

Our goal is to meet the increasing demands for sustainable energy. As a division of M Bar C Construction, the industry leader in commercial carport design, M Bar C Renewables provides solar carport solutions for sustainability-focused partners. M Bar C Construction is now your solution for everything under the sun.

Vertically integrated services.

With in-house engineering, installation, and project management, we have streamlined project processes. Now you only need to coordinate with one company, saving you time and reducing overall costs.

We pride ourselves on creative energy solutions, innovative designs, and the highest client satisfaction. We are here to walk you through each step, from the start of your project to the very end.
